WORK EXPERIENCE

Driver
Lyft
Los Angeles, Ca
January 2016 - Current

- Mostly provided transportation

- Give best customer service as I could.

- Public Speaking and communication

PROJECTS

Rest-Rant

- Built a full-stack web app to allow user to add their favorite restaurants and leave comments using CRUD operations.

- Worked both on front and back end.

- Utilized github and git for code control.

- Used Nodejs(expressJs, mongoose), & Reactjs(express-react-views)

- MVC architecture

- ServerSide Rendering using JSX

Tours API
(inprogress)

- I'm currently working on a API using Nodejs, Expressjs, Mongoose, Jwt, and Reactjs(express-react-views).

- My main focus on this web app is to get a better understanding of Nodejs and back-end.

- Utilizing github and git for code control.

- MVC architecture
